

AGUSTÍN SOBRAL

Senior Mobile Developer

React Native & TypeScript · Co-founder & product builder

Buenos Aires, Argentina · +54 11 5315 4680 · agustin@gurudevelopers.dev
linkedin.com/in/agustinsobral

Senior Mobile Developer and software venture co-founder combining React Native expertise with full-stack delivery and a business mindset. Leads cross-platform development from architecture to release, collaborates across product and engineering, and mentors developers. Entrepreneurial experience spans project delivery, client relationships and mobile product development.

PROFESSIONAL EXPERIENCE

Senior React Native Developer

CiNKO · Remote | Jun 2023 - Present

- Lead cross-platform mobile development from architecture to release, building complex UI components and scalable TypeScript codebases.
- Integrate Firebase, Intercom and AppsFlyer SDKs; manage application state with Redux and optimize performance.
- Manage CI/CD pipelines and troubleshoot native iOS and Android issues, collaborating with product, design and backend teams.
- Contribute to architecture and code quality decisions, mentor junior developers and support technical planning.

Co-founder & Lead Developer

Gurudevelopers · Buenos Aires | Jan 2018 - Present

- Co-founded a software services venture delivering mobile apps, web platforms and backend solutions, connecting client needs with technical implementation.
- Led end-to-end project delivery while contributing across user interfaces, server-side logic and databases; managed client relationships and ongoing support.

BI Consultant & Web Developer

Freelance · Buenos Aires | Sep 2015 - Dec 2017

Delivered full-stack corporate websites and e-commerce solutions. Built MicroStrategy dashboards and reports, and trained client teams.

BI Project Leader

INSSJP · Buenos Aires | May 2010 - Aug 2015

Designed data warehouses and ETL processes; developed interactive dashboards and optimized SQL queries for business reporting.

PRODUCT DEVELOPMENT

Vibes | Mobile app project

Developing a React Native, Expo and TypeScript app for connections, community and wellbeing, spanning onboarding, discovery, messaging, events and multimedia experiences.
